

## Mini Dynasign Player I3A51-2G

*High Performance  
Compact  
Quiet  
Powerful*

- **High Performance:** Brings forth a new era for digital signage player with unrivaled silence, power conservation, and excellent performance in a small package. The Player can satisfy some of the most demanding digital signage applications including multiple screen zones and high-definition videos.
- **Flexible Output Options:** Through its DisplayPort output and integrated DVI-I output with included adapters for VGA and HDMI video connections, the mini Dynasign Player can be seamlessly connect to any late model LCD, LED or Plasma screens via DisplayPort or HDMI input in 1080p and beyond resolution while preserves the compatibility of legacy screens with VGA connection in 4:3 aspect ratio.
- **Rich Content Format Support:** Through Microsoft Windows Presentation Foundation, the player supports most of the rich media content formats including popular video formats (mov, mp4, mpg, avi, and wmv), image (jpg, png, gif and tif), Adobe Flash (swf and flv), HTML and social media feeds (YouTube, Twitter, Flickr, Instagram, Facebook, media RSS)
- **Plug and Play:** With Dynasign Player software pre-installed and configured to work with Dynasign Online Service, you just need to plug in the power, the Internet connection and your LCD, plasma display or LED video board. You can control and manage your display with a Web browser in real-time.
- **Advanced Power Management:** When AC power resumes after power outage, the system will automatically resume its original power state. In addition, the “Wake On Timer” feature allows the player to wake up automatically on specific time every day.
- **Industrial Chassis in Miniature Size:** The chassis is designed for industrial and digital signage installations in mind. Its metal enclosure is equipped with perforated holes for better thermal performance. The chassis is also specifically designed to be mounted with a matching wing or L bracket. With a super mini size of just 6.5(W)x1.89(H)x6.1(D) (inch), the mini Dynasign Player system can be fit into almost any space for installation, whether you plan to mount it in the back of a Plasma or LCD screen or simply hide it under a desk.
- **Standard System Specification:**
  - Intel® Core i3
  - Intel® HD Graphic 4000
  - 2GB Memory, 320GB Hard Drive
